

Fenner Drives Product Testimonial

PowerTwist

Lathe

Idaho, US

POWERTWIST

I simply wanted to provide you my very positive feedback regarding your PowerTwist belt product. When something works as advertised and exceeds my expectations it deserves my feedback.

Your product saved me hours of work tearing down my lathe to replace the captive belt that powers the spindle. It now is running smoother than it has in a long while and was easy to install.

GREAT PRODUCT!!! Thanks so much for making it. BTW I purchased the belt at Grizzly.com.

Sincerely,

Ron Steele
